K+P Koch + Partner | Munich, Leipzig

Koch + Partner besteht seit mehr als 35 Jahren aus einem interdisziplinären Team von Architekten, Stadt- und Raumplanern, Bauingenieuren und Innenarchitekten. Koch + Partner, QM-zertifiziert nach ISO 9001:2000, ist als erfahrenes und leistungsfähiges Team über die Grenzen Deutschlands tätig. Das Leistungsspektrum erstreckt sich über alle Planungsstufen. Ergänzt durch ein Projektmanagement werden sämtliche Planungsleistungen auch als „Generalplaner“ für alle Fachingenieurleistungen übernommen. Planungsschwerpunkte sind Verkehrsbauten, Verwaltungsgebäude, Schulen, Bauten der Wissenschaft und Technik, Energieeffiziente Gebäude, Struktur- und Entwicklungsplanung, Bauleitplanung, Altstadtsanierung und Bauen im Bestand.

Koch + Partner, comprises for more than 35 years an interdisciplinary team of architects, urban and regional planners, building and civil engineers and interior designers. Koch + Partner, quality management system certified according to ISO 9001:2000, are an efficient and experienced planning team, that is also active beyond the borders of Germany. They are involved in all stages of the planning process. Enhanced by a project management K+P also takes over all planning for specialist engineering services as “general planners”. Focal points of planning include traffic, administration and office buildings, schools, buildings for science and technology, energy-efficient buildings, structure and development planning, urban development planning and old town refurbishment, as well as working with existing buildings.

**Reg.-Baumeister,
 Dipl.-Ing. Architect BDA
 Norbert Koch**

Graduate architectural engineering, member of BDA, studies of Architecture and Urban planning at University of Technology, Munich; 1967–72 Head of Institute for Urban, Regional and Environmental Planning; since 1970 own architectural and urban planning practice

Koch + Partner verfügt über ein qualifiziertes Team. Unsere langjährigen Mitarbeiterinnen und Mitarbeiter haben wertvolle Erfahrungen und besondere Kenntnisse im In- und Ausland erworben. Wir sind prädestiniert dafür, bei internationalen Großprojekten in interdisziplinären Arbeitsgemeinschaften mitzuwirken oder als Generalplaner das Planungsteam zu führen. Bei Auslandsprojekten arbeiten wir grundsätzlich mit lokalen Partnern zusammen.

Lange bevor Begriffe wie Nachhaltigkeit und Ressourcenschonung die öffentliche Diskussion beherrschten, haben wir bei unseren Projekten energieeffiziente Architektur und ökologisches Bauen umgesetzt. Unser Leistungsspektrum erstreckt sich über alle Phasen eines Bauprojekts. Wir begleiten unsere Partner vom Projektmanagement über die Beratung in der Frühphase des Baus bis hin zur Bauleitung. Eine interne Qualitätskontrolle sichert den geregelten Planungsverlauf und ist seit jeher Bestandteil der Planung in allen Leistungsphasen.

Koch + Partner has a highly trained team at its disposal. Our employees, who have been with the company for many years, have invaluable experience and knowledge acquired both in Germany and abroad. We are ideally qualified to collaborate in interdisciplinary working groups on major international projects and to lead the planning teams as general planners. In projects outside Germany we work together with local partners.

Long before concepts like sustainability and the responsible use of resources entered the public debate, we were already using energy-efficient architecture and eco-friendly building methods. Our services extend to all phases of a construction project. We assist our partners with project management, consulting during the early phase of construction, and construction management. The internal quality control ensures a regulated planning process and is at all times part of all planning phases.
